Notes regarding the 2009 Terra Nova Tests administered at Infant Jesus of Prague:

1) In 2009, IJP switched to using the 3rd Edition of the Terra Nova test (in previous years the 2nd Edition had been administered at our school.). This newer version of the test assessed the same basic categories, but several of the questions were in a different format and the level of difficulty and content in some areas changed. As such, the comparison of this year's scores with previous year's scores is difficult since they are not on an equivalent basis. (Reporting of 2009 to 2010 test results will provide information for our community to reflect upon comparing similar tests results as compared to trying to compare the results of two different Terra Nova Tests.)

2) Grades 1 & 2 were not tested in a separate "Language" section.

3) "Total Score" is Reading, Language, and Math combined.
